

Rennes AARCH Workshop 27 October – 1 November 2005
DRAFT PROGRAM

Wed 26th arrive

Thus 27th GEOMAGNETISM – talks and discussions

Andy JACKSON (School of Earth and Environment, Leeds University) : Geomagnetic field models

Gauthier HULOT (IPGP Paris): Magnetic models based on archaeomagnetic data.

Young researchers presentations

Dinner in gastronomic restaurant

Fri 28th BUILDING THE CURVES – talks and discussions

Fanette LAUBENHEIMER (Research Director at the CNRS, Nanterre, Paris X University) : on chrono-archaeological arguments

Agnès GENEVEY (C2RMF, Louvre Museum, Paris) : The magnetic database MAGIC

Young researchers presentations

Dinner in creperie

Sat 29th BUILDING THE CURVES – talks and discussions

Caitlin BUCK, (Sheffield University, Department of probability and statistics): on Bayesian tools applied to chronological modelling in C14 and dendrochronology

Philippe LANOS: on Bayesian modelling applied to chronology and curve building

Business Meeting

Free evening

Sun 30th EXCURSION to South Brittany (1:30 hrs from Rennes by bus): Visit the megalithic sites in the Gulf of Morbihan, lunch, boat trip round the Gulf, visit to the medieval city of Vannes and conference dinner on the Gulf.

Mon 31st APPLICATIONS TO DATING Please bring examples of data that can be dated!

Maxime LE GOFF or **Yves GALLET** (IPGP Paris and Lab. Géomagnétisme de Saint-Maur) : on the dating software developed in IPGP Paris-Saint-Maur

Philippe LANOS: dating software developed in Rennes

From mid afternoon visit to Mont Saint Michel (AM sampling and results obtained for the old medieval church beneath the Romanesque church). Dinner before heading back to Rennes

Tues 1st Departures
